ENCAMPMENT COMMITTEE, S. W. V., DISSOLVED.

The police department of the District of Columbia and its superintendent were commended by the members of the national encampment committee of the United Spanish War Veterans at a special meeting of the department of the District of Columbia last evening at Costello's Hall, 6th and G streets. The statement was made by Commander Mitchell that the police force not only assisted in many ways to make the recent encampment a success, but Maj. Sylvester yesterday turned over to Capt. Lee M. Lipscomb, treasurer of the committee, the residue of the money contributed by the police to the encampment fund, amounting to \$11.50.
 The meeting was called for the purpose of settling up the affairs of the encampment committee, and Gen. George H. Harries and the members of the committee of business which raised the major part of the fund which was used for encampment purposes were complimented by Capt. Lipscomb and others.
 Preliminary matters had been disposed of by Maj. Fred S. Hodgson, chairman, called for the report of the secretary of the committee, which was presented by Capt. Lee M.  Capt. Lipscomb, treasurer, submitted his report. It showed that the total amount collected from all sources was \$3,323, while the total expenditures were \$2,890, leaving a balance on hand of \$433.33, derived from the sale of privileges of the illustrated souvenir program. The sum was turned over to Quartermaster Green to be placed in the department funds. In concluding his report Capt. Lipscomb said:
 "Mr. Jeremiah Costello, chairman of the smoker and campfire committee, stated that more than 5,000 guests were entertained the night of October 8.

DISTRICT DAY AT JAMESTOWN.

Commissioner Macfarland Suggests June 11.

Commissioner Macfarland has suggested that the invitation to the Jamestown Exposition Company, that the District of Columbia date to be known as District of Columbia day at the exposition, be accepted. Mr. Macfarland mentions June 11 for consideration by his colleagues. That date, he explains, is particularly appropriate, as it was the date of the approval of the organic act of 1878, when the permanent form of government was adopted. "I also move," Commissioner Macfarland said, "that a committee, composed of the presidents of the Board of Trade, the Business Men's Association and the Jobbers and Shippers' Association, be appointed to make the necessary arrangements for the celebration of District Day at the Jamestown tri-centennial exposition."

Views of Judge DeLoey.

That Judge DeLoey of the Juvenile Court believes in the old adage, "Spare the rod and spoil the child," was indicated yesterday when he instructed the mother of Clarence M. McWhip the latter when she reached home with her boy.
 "He has done wrong by throwing a stone on the street at a little girl," commented his honor. "And I want you to punish him when you get home. Do it brutally or cruelly, for then you would be responsible for assaulting him."
 All right, Judge," the mother responded. "But Judge DeLoey said to spare the rod to apologize to Zeada Ross, the girl in question, and the charge was dismissed."

LARCENY OF CYCLES.

Judge DeLoey Determined to Break Up the Practice.

"I'm going to break up the practice of stealing bicycles, if possible," Judge William H. DeLoey, in the Juvenile Court, remarked yesterday afternoon, as he then closed the trial of three small boys charged with the larceny of a wheel. They were sentenced to the reform school.
 The court records, it is said, show that bicycle stealing is the most common of crimes committed in the District, and that boys under the age of seventeen years are the most frequent offenders.
 When asked about the matter the boys made a confession, each declaring, however, that the others proposed taking the wheel.
 In one case, in which several boys were involved, it was testified that all the booty of the gang in the way of wheels was put together, and that the parts of the wheels were taken to make one good wheel, which neither owner of the lost wheels could identify. As in the case tried yesterday, testimony in former cases showed that the frames have been painted, name plates removed and other means of identification destroyed.

MILLIONS OF SPEECHES.

G. P. O. Furnished Many Copies During the Recent Campaign.

The government printing office was not overlooked in the making of the late political campaign, furnishing over 5,000,000 copies, it is said, of congressional speeches for members of both branches of Congress. Work of this character, done at the expense of the party ordering the work, and members of both parties have equal privileges, the amount being limited by the desire of the member. A fact not generally known is that any private person may, upon presentation of a certified check for the amount of the cost, have printed for his individual use 250 copies of any government publication, provided the order is given before the press work is completed.
 The speeches by most demand are said to have been those on the meat-inspection bill and the railway-rate legislation. Pure food agitation and the Philippine tariff came up for a good share of attention, while labor up to the time of the election was the subject of the largest single order is understood to have been for 150,000 copies.

Sues for Accounting and Receiver.

Suit for an accounting and to appoint a receiver has been filed in the District Supreme Court by John Edward Shea, an infant, through his mother and next friend, Helen F. Shea, against Arthur Mulloy and Annie Mulloy. The bill, which is filed through attorneys Wilton J. Lambert and James E. Esby-Smith, sets forth that Edward Shea, the father of complainants, died in this city in February, 1906, and prior to his death entered into an agreement with the defendant to purchase houses 324 and 326 C street northwest for \$400, and that was to be paid by cash in cash, and a mortgage of \$2,500 assumed upon the two houses.
 It is set forth that the deceased paid his part of the cash consideration and that as a matter of convenience the title of the property was allowed to be taken in the name of the defendant, Mrs. Mulloy, who was a sister of deceased. It is also alleged that without the knowledge on the part of deceased the defendants undertook to sell house 324 C street.

Sues to Set Aside Trust.

Alleging that a deed of trust to secure James S. Goodman payment of the sum of \$4,042.50, given by John Ridout October 4, 1904, was an attempt to prefer the claim of Mr. Goodman over other creditors, Charles H. Merritt, trustee of the bankrupt's estate of Mr. Ridout, has filed suit in the District Supreme Court against John Goodman and the trustees named in the deed to set aside the conveyance.
 The property transferred by the trust deed consists of a third interest in what is known as the Pool farm of 1,100 acres in Montgomery county, a one-third interest in the Allnut farm of 400 acres in Montgomery county, Md., and a one-eighth interest in some 5,000 acres of coal lands in Braxton and Webster counties, W. ADOPTS LOCKER SYSTEM.

Chevy Chase Club Members to Provide Their Own Refreshments.

The members of the Chevy Chase Club today put into effect the "locker system," which is intended to conform to the requirements of the Maryland law relative to handling of liquor. There has been some friction for several months over the question, but it is expected that this action of the club men will meet the requirements imposed by the authorities of Montgomery county.
 In installing the "system" the members do not want it understood that there have been any violations of the liquor law at the club. It is stated that refreshments have always been obtainable there, as in every social organization, and that the "locker system" merely means that each member hereafter will provide for his own needs.
